Research Question

A shared experience of how faith impacts professional boundaries in counsellors and the subsequent therapeutic relationship with clients

I am keen in exploring if different faith has an impact on professional boundaries as there is a gap in this area.

Aim	Identify the impact of boundaries with therapists of different faith Explore if faith affects perception of professional boundaries Analyse the subsequent therapeutic relationship Assess the impact of faith on the therapeutic alliance
Criteria	UK-based qualified counsellor Age 18 or over Experiences in navigating the complexities of faith and professional boundaries
The ask	Take part in 1 confidential, semi-structed interview on Microsoft Teams (approx. 60 minutes) Your contribution will be anonymised
