Contents

1 Editorial

2 Alcohol and the therapeutic relationship

The role of specialist addiction treatment has been over-stated, say **David Best** and **Angela Campbell**

4 Alcohol and drug misuse: a family affair

A shift in the way we understand addiction problems towards a family-inclusive focus has the potential to benefit millions, writes **Alex Copello**

8 Staying off the bottle: maintaining recovery from alcohol addiction through mutual-aid

Mutual-aid groups are an invaluable resource for clients in recovery, and one that practitioners need to understand and use, writes **David McCartney**

13 Motivational interviewing and alcohol

Michael Madson and colleagues provide a brief introduction for practitioners who may be thinking of adding MI to their repertoire

17 Psychological dependence on alcohol: a process model

Alcohol dependence occurs as the result of a creative response to adverse environmental conditions, argues **Richard Allsup** – and therapists have the core skills to respond to this problem

22 Alcohol misuse: a very human tragedy

Reaching out to help the person behind the alcohol problem is the key task of therapy, writes **Richard Bryant-Jefferies**

25 Addiction: a search for transformation

Problems in relating are fundamental to addiction, writes **Jason Ward**

30 Reflections on supporting doctors in their work

Penny Henderson considers the value of counselling supervision for junior doctors

32 Research matters

Why get involved in a randomised controlled trial, asks **Sara Perren**

34 Primary cares

The needless death from alcohol misuse angers **John Hague**

35 On the receiving end

A bipolar diagnosis does not mean 'beyond help', writes **Andrea Woodside**

36 Best practice

Clare Price describes Turning Point's Rightsteps Wakefield service

41 BACP and IAPT

Sara Perren reflects on her role as BACP consultant on IAPT
