BACP Research Conference 2024

Every year BACP hosts its research conference, an event where researchers and practitioners come together to exchange ideas on important research findings that are relevant for counselling and psychotherapy practice.

2024 conference on “Enriching research, practice and policy with lived experience”

Hybrid conference co-hosted with Birmingham Newman University, in-person and online, 17 and 18 May 2024.

Good Research Practice Member Resources

Our online resources are designed to support students and practitioners engage with research findings and begin undertaking their own research.

Our research resources contain panel discussions, member interviews, presentations and written information covering different areas including:

- ✓ Critically appraising research
- ✓ Developing research methodology
- ✓ Presenting at conferences
- ✓ Research ethics
- ✓ Writing a research proposal
- ✓ Writing for publication

Students and members can access the research resources by visiting:

<https://www.bacp.co.uk/events-and-resources/research/good-research-practice/>

Postgraduate Research (PGR) Forum

Are your students undertaking research as part of their masters, PhD or other postdoctoral degree in counselling and psychotherapy?

Our PGR Forum offers:

- ✓ An online platform to discuss research interests, ideas and challenges
- ✓ Optional monthly online meetings for discussion and research presentations from forum members

Students can join the PGR Forum by contacting us at research@bacp.co.uk

Research Noticeboard

Are your students looking to recruit participants for their research project?

BACP members, along with members of the Postgraduate Research Forum can advertise their call for participation on our Research Noticeboard.

<https://www.bacp.co.uk/events-and-resources/research/research-noticeboard/>

Contact us: research@bacp.co.uk

Routine Outcome Monitoring Hub

A hub to support members to use routine outcome measures with clients. This includes information, guidance, and practical solutions and is aimed at both individuals and services with a wide range of views and experiences of routine outcome monitoring.

Contact us: research@bacp.co.uk

Student Research Platform/journal

We are in the planning stages of developing an online BACP platform /journal offering students the opportunity to publish their research dissertations open access as a journal article.

This will give students the opportunity to:

- ✓ Have their dissertations read by a wider audience.
- ✓ Gain important experience in writing for journal publication.
- ✓ For students planning their dissertation, search for past topics to generate ideas and avoid duplication of common topics.
