I am researching how counsellors work with emotionally based school avoidance (EBSA). I seek participants experienced in counselling children dealing with EBSA, which involves ongoing school non-attendance caused by various factors. I aim to address system tensions, fill research gaps, and find ways to support better within a struggling system.

What to expect

1-hour interview on Teams

The interview will be recorded and then transcribed. All personal information will be anonymised and kept confidential.

Criteria

Must have experience counselling EBSA.
